

TECHLINE MMA

COLD APPLIED ROAD MARKING MATERIALS

Techline MMA is a range of advanced cold applied road marking products based on heavy duty BAST (German Road Institute) certificated road marking resins giving outstanding durability.

BENEFITS AND FEATURES:

- Rapid installation - cures within 30 minutes of installation
- Outstanding durability - up to 3 times the life expectancy of traditional materials
- Various colours available
- Ease of application
- Cold Applied
- UV resistant
- Excellent bond to both asphalt and concrete substrates
- Solvent free
- Excellent chemical and salt resistance
- Outstanding thermal stability

Techline is available in a wide range of colours. Applied using manual techniques (screed box, trowel or roller) the system is designed to provide excellent performance, flexibility and resistance to extreme operating conditions. It is suitable for both asphalt and concrete substrates. Cure time stays unaffected down to -10°C.

PRODUCT USES:

- Car parks
- Arrows, lettering and stencil applied markings
- Carriageway line re-instatement
- Petrol stations
- Airports (non-runway)

PHYSICAL PROPERTIES

Form	Liquid
Colour	Various
Typical Skid Resistance	60+
Application Temp.	0 - 35°C
Curing Time	30 - 60 mins
Application Depth	2 - 3mm approx.
Coverage Rate	4m/kg (100 mm width)

IMPORTANT NOTES:

Storage and handling: Packed in 25kg buckets, shelf life approx. 12 months, protect from sub-zero temperatures.

Disclaimer: All products should be used in accordance with the manufacturer's instructions. No responsibility can be taken by the manufacturer where conditions of use are beyond our control. Materials are sold only on the basis of conforming to specification, but without warranty expressed or implied in law or in fact of merchantability or fitness for a particular purpose and upon the condition that purchasers make their own tests to determine the suitability of such products for their particular purpose. Issue no: 5 - 13.1.21
